## UPS® WORLDWIDE ECONOMY

UPS Worldwide Economy is a low-cost, deferred international small package contract-only service. It is designed for low-weight, low-value, business to consumer, cross-border shipments. The service is available only with Delivered Duties Paid (DDP) terms:

- Duties and taxes are paid by the shipper on their UPS invoice

UPS Worldwide Economy service involves the manifesting of international shipments to many export countries. These shipments are then consolidated at the shipper location into Master Cartons (also referred to as "Master Container") for consolidated movement to an Export Site. Master Cartons are opened and emptied at the Export Site with contents being sorted and consolidated by destination country for export.

UPS Worldwide Economy can be thought of as a movement in two parts.

- First Mile: Movement from the merchant shipper to the Export Site
  - The merchant shipper consolidates their UPS Worldwide Economy packages to a Master Carton
  - The Master Carton is shipped to the Export Site where the UPS Worldwide Economy packages are deconsolidated and prepared for export to the destination country
  - The cost of shipping for the First Mile movement to the Export Site is not included in the UPS Worldwide Economy rates
- Last Mile: Worldwide Economy shipments will be tendered to trusted delivery providers within the country of destination for delivery to the consignee address.
