Zone tables

The following tables list which service options are available to and from a particular destination and origin and are also used to identify a shipment's zone number. You will need the zone numbers when calculating the cost of your shipment.

Sending or receiving

Use the **sending** zone columns when the shipping charges are billed to a party in the sending country*.

Use the **receiving** zone columns when the shipping charges are billed to a party in the receiving country*.

Using the zone table

- 1 Find the location you are sending to or receiving from.
- 2 A service is generally available when there is a zone number in the sending or receiving column of the country of your choice.
- 3 Note the zone number for later reference when calculating the cost.

* Please see [Section 5](#) for more information about billing options.

+ Extended or remote area charge may apply to certain areas.

Tables showing all extended or remote areas can be found in the ['Calculate Time and Cost'](#) section at www.ups.com.

Please note that extended or remote locations are subject to change.

Zone tables

The following tables list which service options are available to and from a particular destination and origin and are also used to identify a shipment's zone number. You will need the zone numbers when calculating the cost of your shipment.

Sending or receiving

Use the **sending** zone columns when the shipping charges are billed to a party in the sending country*.

Use the **receiving** zone columns when the shipping charges are billed to a party in the receiving country*.

Using the zone table

- 1 Find the location you are sending to or receiving from.
- 2 A service is generally available when there is a zone number in the sending or receiving column of the country of your choice.
- 3 Note the zone number for later reference when calculating the cost.

* Please see [Section 5](#) for more information about billing options.

+ Extended or remote area charge may apply to certain areas.

Tables showing all extended or remote areas can be found in the ['Calculate Time and Cost'](#) section at www.ups.com.

Please note that extended or remote locations are subject to change.

2. DETERMINING THE RATE - SENDING SHIPMENTS

The rate for sending a UPS shipment is determined by its service level, destination zone, weight and any additional charges.

How to calculate your shipment rate:

- 1 Make sure that you are in the correct section. The sending rates in this section apply to any outbound domestic and international shipments when the shipping charges are billed to a party in the **sending country**.
- 2 Determine the billable weight.
- 3 Turn to the service option of your choice (UPS Express Plus, Express, Express Saver, Standard, Expedited or Worldwide Express Freight).
- 4 Find your shipment type in the chart (UPS Express Envelopes, documents or packages). UPS offers separate rates for single package and multiple package shipments for the UPS Standard service.
- 5 Look up the rate that applies to the billable weight and zone for your shipment.
- 6 Note any additional costs, including charges for optional services.

Time saving tip

You can also find the total cost of your shipment via the UPS '[Calculate Time and Cost](#)' tool on the FR homepage at www.ups.com.

Changes to rates and additional charges

In order to respond to evolving costs and taxes and to ensure a competitive service, UPS reserves the right to amend or introduce rates and charges. A minimum of 10 days notice will be provided.

How to use this section

Rates in this section apply when the shipping charges are billed to a party in the **sending country**.

Zone

To determine the zone number, see [Worldwide zones](#).

Billable weight – for small package shipments

Billable weight is the weight used to calculate the rate. For domestic and international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

How To Calculate Billable Weight

Determine Actual Weight: Use any standard scale to determine the actual weight of your package. Increase any fraction to the next half kilogram.

Determine Dimensional Weight: Divide the cubic size of your package (length x width x height, rounding each measurement to the nearest whole centimetre) in centimetres by 5,000. Refer to the figure at the bottom of this page. Increase any fraction to the next half kilogram.

Determine Billable Weight: Compare the package's actual weight to its dimensional weight. The larger of the two weights is the billable weight and should be used to calculate the rate.

For multiple-package shipments, total the billable weight of all packages in the shipment.

Additional charges

These rates are exclusive of any additional charges, such as charges for extended or remote area delivery or any optional services. Please see [Additional Services & Charges](#) for more details.

Tax

These rates are exclusive of tax. Where applicable, VAT will be charged at the standard rate.

Arrange a collection

Select "[Schedule a Collection](#)" or call UPS on 0 821 233 877 (Service 0,12 EUR/min + cost of the call).

UPS Express Envelope

For correspondence, documents and electronic media only.

Letter weight limit

Letter rates apply for domestic and international documents, correspondence and electronic media shipments that do not exceed 0.5 kg sent in a UPS Express® Envelope. Domestic, import and export letters above 0.5kg and less than or equal to 2.5kg will be billed the document rate. Domestic, import and export letters above 2.5kg will be billed the package rate.

Maximum weight

The maximum weight per package is 70 kg. If you need to ship a single package weighing more than 70 kg, please refer to our UPS Worldwide Express Freight service, available in the [Freight Services](#) section of this guide or contact UPS at 01 58 03 98 20.

To determine the rate for a shipment with multiple packages weighing in total more than 70kg, 200kg (UPS Standard) or 100kg (UPS Expedited), multiply the total weight (rounded up to the next whole kilogram) by the appropriate price per kilogram shown.

The amount billed will be the result of the calculation, or the minimum rate shown, whichever is the greater.

How to determine dimensional Weight – for small package shipments

$$\frac{L \times W \times H}{5000} = \text{Dimensional weight}$$

L = length in cm

W = width in cm

H = height in cm

Billable weight – for UPS Worldwide Express Freight shipments

Compare the freight shipment's actual weight and dimensional weight. Whichever is the greatest of the two will be the billable weight and should be used when calculating the rate. The amount billed will be the result of the calculation, or the minimum rate shown, whichever is the greatest.

For multi-piece shipments, the billable weight is determined by summing each pallet's rounded actual or dimensional weight, whichever is greater.

- 1 Determine actual weight and round up any fraction of a kilogram to the next whole kilogram.
- 2 Determine dimensional weight by multiplying the item's length by the width by the height. For each dimension, measure the largest distance, rounding each measurement to the nearest whole number. The result is the cubic size. Divide the cubic size by 5000. Round up any fraction of a kilogram to the next whole kilogram.

Example									
Freight Billable Weight: Using a Pallet*									
No. of Pieces	Type	Length Each	Width Each	Height Each	Shipment Weight	Pallet Weight	Actual Weight	Dim. Weight	Billable Weight
1	Pallet	90 cm	90 cm	90 cm	143 kg	19 kg	162 kg	146 kg	162 kg

* Pallet billable weight is equal to the shipment weight (143kg) plus the weight of a pallet (approximately 19kg). Please note that each pallet and its secured contents is considered as one piece.

3. DETERMINING THE RATE - RECEIVING SHIPMENTS

The rate for receiving a UPS shipment is determined by its service level, origin zone, weight and any additional charges.

Our rates in your local currency are fixed in advance to avoid the effects of currency fluctuations and allow you to manage your import shipping costs.

How to calculate your shipment rate:

- 1 Make sure that you are in the correct section. The receiving rates in this section apply to any inbound domestic and international shipments when the shipping charges are billed to a party in the **receiving country**.
- 2 Determine the billable weight.
- 3 Turn to the service option of your choice (UPS Express Plus, Express, Express Saver, Standard, Expedited or Worldwide Express Freight).
- 4 Find your shipment type in the chart (UPS Express Envelopes, documents or packages). UPS offers separate rates for single package and multiple package shipments for the UPS Standard service.
- 5 Look up the rate that applies to the billable weight and zone for your shipment.
- 6 Note any additional costs, including charges for optional services.

Important

Please ensure that the shipper records your UPS account number on the UPS shipping documents.

Total control of imports

UPS can collect your shipments from around the world. To find out about our secure UPS Import Control service please refer to Import Control & Trade Direct.

Time saving tip

You can also look up receiving rates in the '[Calculate Time and Cost](#)' section on the UK homepage at www.ups.com.

Changes to rates and additional charges

In order to respond to evolving costs and taxes and to ensure a competitive service, UPS reserves the right to amend or introduce rates and charges. A minimum of 10 days notice will be provided.

How to use this section

Rates in this section apply when the shipping charges are billed to a party in the **receiving country**.

Zone

To determine the zone number, see [pages 17-20](#).

Billable weight – for small package shipments

Billable weight is the weight used to calculate the rate. For domestic and international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

How To Calculate Billable Weight

Determine Actual Weight: Use any standard scale to determine the actual weight of your package. Increase any fraction to the next half kilogram.

Determine Dimensional Weight: Divide the cubic size of your package (length x width x height, rounding each measurement to the nearest whole centimetre) in centimetres by 5,000. Increase any fraction to the next half kilogram.

Determine Billable Weight: Compare the package's actual weight to its dimensional weight. The larger of the two weights is the billable weight and should be used to calculate the rate.

For multiple-package shipments, total the billable weight of all packages in the shipment.

Additional charges

These rates are exclusive of any additional charges, such as charges for extended or remote area delivery or any optional services. Please see [page 39](#) for more details.

Taxes

These rates are exclusive of tax. Where applicable, VAT will be charged at the standard rate.

Arrange a collection

Select "[Schedule a Collection](#)" on your local homepage at www.ups.com or call UPS on 0 821 233 877 (Service 0,12 EUR/min + cost of the call).

UPS Express Envelope

For correspondence, documents and electronic media only.

Letter weight limit

Letter rates apply for domestic and international documents, correspondence and electronic media shipments that do not exceed 0.5 kg sent in a UPS Express® Envelope. Domestic, import and export letters above 0.5kg and less than or equal to 2.5kg will be billed the document rate. Domestic, import and export letters above 2.5kg will be billed the package rate.

Maximum weight

The maximum weight for an individual package is 70kg. If you need to ship single packages in excess of 70kg, please refer to our UPS Worldwide Express Freight service, consult the Freight Services section in this guide or call UPS on 01 58 03 98 20.

To determine the rate for a shipment with multiple packages weighing in total more than 70kg, 200kg (UPS Standard) or 100kg (UPS Expedited), multiply the total weight (rounded up to the next whole kilogram) by the appropriate price per kilogram shown.

The amount billed will be the result of the calculation, or the minimum rate shown, whichever is the greater.

Chargeable weight – for UPS Worldwide Express Freight

Compare the freight shipment's minimum billable weight, actual weight and dimensional weight. Whichever is the greatest of the three will be the billable weight and should be used when calculating the rate. The amount billed will be the result of the calculation, or the minimum rate shown, whichever is the greatest.

For multi-piece shipments, the chargeable weight is determined by summing each pallet's rounded actual or dimensional weight, whichever is greater.

- 1 Determine actual weight and round up any fraction of a kilogram to the next whole kilogram.
- 2 Determine dimensional weight by multiplying the item's length by the width by the height. For each dimension, measure the largest distance, rounding each measurement to the nearest whole number. The result is the cubic size. Divide the cubic size by 5000. Round up any fraction of a kilogram to the next whole kilogram.

Examples									
Shipment weight to charge : by using a pallet*									
No. of Pieces	Type	Length Each	Width Each	Height Each	Shipment Weight	Pallet Weight	Actual Weight	Dim. Weight	Billable Weight
1	Pallet	90 cm	90 cm	90 cm	143 kg	19 kg	162 kg	146 kg	162 kg

* Pallet billable weight is equal to the shipment weight (143kg) plus the weight of a pallet (approximately 19kg).
Please note that each pallet and its secured contents is considered as one piece.

Easy Access – UPS Returns are instantly accessible. All services can be used with UPS's free shipping systems: UPS Internet Shipping, WorldShip, UPS CampusShip or host-to-host EDI systems.

Notes

- For domestic and intra-EU return shipments, the entire return process can be handled with just the return label. There is no contract with the returning party.
- Shipments to or from countries outside the EU require both a return label and a commercial invoice in order for the shipment to pass smoothly through customs. Regulations and requirements for documentation for individual commodities vary from country to country. It is essential to review commodity-specific documentation stipulations for both the country of origin and the country of destination. Depending on the commodity and its use, special licensing and notations for accompanying documentation may be required.
- If the international shipment is returned to a different country than where the requesting party resides, a customer contract will be required.
- UPS 1 Attempt and UPS 3 Attempts Returns Plus are available for collection in the EU plus the following countries or territories: Canada, Liechtenstein, Mexico, Norway, Puerto Rico, Russia, Switzerland, United States.

- Transportation charges for return packages are billed after entering the UPS system. UPS Prints and Posts Return Label, UPS 1 Attempt Returns Plus and UPS 3 Attempts Returns Plus, UPS Returns Exchange and UPS Returns Pack and Collect accessorial fees are billed at the time of request. UPS Print Return Label, UPS Electronic Return Label and Import Control fees are billed after the corresponding package enters the UPS system.
- UPS Prints and Posts Return Label is available for retrieving goods within the EU plus the following countries or territories: Australia, Brazil, Canada, China, Hong Kong, India, Japan, Liechtenstein, Malaysia, Mexico, Norway, Philippines, Puerto Rico, Russia, Singapore, South Korea, Switzerland, Thailand, United States.
- All UPS Returns are subject to UPS's Terms and Conditions of Carriage.

All charges for our additional and optional services are shown exclusive of taxes. Where applicable, VAT will be chargeable at the standard rate.

In consideration of the additional handling required on our part, and subsequent potential delays in processing these shipments, UPS does not provide a money-back guarantee for them. Details are available at www.ups.com .
Surge Fees	UPS reserves the right to impose one or more Surge Fees on Packages shipped during such specific periods as UPS may designate in its sole discretion. UPS Broker of Choice®

This service enables importers to select their own customs broker for customs clearance of their UPS international shipments.

This service is available with the full portfolio of UPS shipping services and ensures that the established relationship with a Customs Broker remains in place while the importer works with UPS to save time and increase efficiencies in shipping and customs processes. Using UPS Broker of Choice provides full tracking visibility and enables importers to reduce fees and errors incurred while using multiple customs clearance processes.

This service is charged 45,50 EUR/shipment.

Importers have two options:

UPS Broker of Choice OnSite is for shipments that remain in UPS possession while the importer's customs broker completes customs clearance procedures prior to UPS completing delivery of the shipment.

UPS Broker of Choice OffSite is for shipments moved "in-bond" directly to a customs controlled (bonded) warehouse (at the importer's direction) where the importer's customs broker completes the customs clearance procedures. The UPS transport is complete upon delivery of the shipment to the warehouse.

UPS Broker of Choice also gives your broker advance access to shipping documentation at the UPS Import Clearance Alert website import.ups.com.

For the latest details and fees related to UPS Broker of Choice, please visit www.ups.com or contact your local UPS sales representative.

UPS FTZ Facilitator®

This service gives importers and exporters the ability to use UPS to transport international shipments "in-bond" to and from a global Free/ Foreign Trade Zone (FTZ).

This allows the shipment of goods to and from an FTZ without using other transportation providers. Having a single source transportation provider enables importers and exporters to increase visibility and tracking, and reduce the chance for errors and costs associated with utilising multiple transportation providers.

The process is really very simple. Importers will choose UPS FTZ Facilitator to direct shipments to be delivered, in-bond, to a designated FTZ rather than being cleared through customs. On the other side, exporters will choose UPS FTZ Facilitator to ship goods in-bond from an FTZ to an international destination. So whether you are importing or exporting this service can help you go global with confidence.

UPS FTZ Facilitator also gives you advance access to shipping documentation at the UPS Import Clearance Alert website for your broker and FTZ operator (import.ups.com).

¹ Costume jewellery and costume watches: jewellery and watches for which the retail price is lower than USD 150 per item and which do not contain precious metal(s) and/or stone(s)

Prohibited articles and service restrictions

Alcoholic beverages

UPS offers an alcohol shipping programme, which allows customers to ship alcoholic beverages containing less than 70% alcohol in and between certain countries. A contract is necessary for shippers in the alcohol industry. Customers not in the alcohol industry can ship gifts within the EU without a contract.

Within the EU, alcoholic beverages may be shipped either excise duty paid or under duty suspension. They must, however, have an alcohol content of less than 70% and must be in containers with a capacity of 5 litres or less.

UPS accepts domestic shipments of such alcohol in the following countries or territories: Belgium, France, Germany, Italy, the Netherlands, Poland, Portugal, Spain and the UK. Across borders, alcohol can be shipped between EU member states with the exception of Finland and Sweden. Areas that are not part of the EU customs area or the EU common system of Value Added Tax (VAT) are excluded. Alcoholic beverages under duty suspension cannot be shipped within or from Latvia or Malta.

Packages containing alcoholic beverages should be clearly indicated as "alcoholic beverages" on the shipping label, waybill or other shipping documentation. Alcoholic beverages should not be included in a shipment containing non-alcoholic products. Furthermore, packages containing alcoholic beverages must be physically separated from others when prepared for collection by UPS.

UPS only agrees to deliver alcoholic beverages to an adult. Therefore, if you are shipping alcohol to a residential address, you must select the "Adult Signature Required" option (please see [Optional services / Additional costs](#)).

Products such as alcohol are subject to excise duty regimes in all EU member states. As such, specific documentation or fiscal marks are required to accompany all international and some domestic shipments. Please note that UPS does not automatically obtain the consignee's signature on the excise duty documents, nor does UPS automatically return these documents to the shipper.

Detailed information on the excise duty regime is published by the European Commission and can be found online².

You can also contact your sales representative or refer to the UPS Alcohol Shipping Guide for more information.

General obligations

It is the shipper's responsibility to comply with current government regulations or laws applicable in each country. Shipments are subject to inspection and possible delay by customs or representatives of other government authorities.

We reserve the right to refuse or suspend transportation of any package which does not set out contact details for shipper and receiver and of goods which, in our opinion, are not practicable for transportation or are not adequately described, classified or packed and labelled in a manner suitable for transportation and accompanied by necessary documentation.

We will not transport any goods which are prohibited by law or regulation of any federal state or local government in the origin or destination countries or which may breach any applicable export, import or other laws or endanger the safety of our employees, agents and subcontractors or the means of transportation or, which in our opinion, may soil, taint or otherwise damage other goods or equipment or which are economically or operationally impractical to transport.

UPS does not agree to carry any prohibited articles. Without prejudice to any other provision in these terms or the UPS Terms and Conditions of Carriage, if it comes to the attention of UPS that a package contains any prohibited article, you must pay to UPS an additional minimum administration fee of 280 EUR in addition to any other applicable charges. Payment by you of such fee does not in any way limit or exclude your liability to UPS resulting from the breach of the UPS Terms and Conditions of Carriage nor does it mean that UPS accepts any liability, or waives any rights, in respect of such prohibited articles.

Dangerous Goods

UPS adheres to the air transportation regulations outlined by the International Air Transport Association (IATA) and to the road transportation regulations outlined by the UN ADR and does not accept Dangerous Goods in its system – nationally or internationally. Local national regulations also apply for road transport.

Businesses which ship Dangerous Goods without appropriate labelling, documentation and packaging can face significant financial and legal penalties.

It is also important to remember the following when shipping with UPS:

- 1 If you are reusing packaging or cartons, please ensure that all old labelling is removed. Any Dangerous Goods labels on a package will cause the shipment to be held and inspected, causing service delays and inconvenience to you and your customer.
- 2 If you are shipping goods that could be potentially seen as Dangerous Goods but are not – because of their unusual name, appearance etc, it is advantageous to clearly declare on the shipping documentation that the goods are 'not classified as Dangerous Goods'. This will ensure the shipment is not delayed unnecessarily. Any misdeclaration may lead to significant penalties for the shipper.

For certain services and selected destinations UPS offers a free money back guarantee on the shipping charges. To find out if it applies to your shipment, use the 'Calculate Time and Cost' tool at www.ups.com and key in your shipping details. Alternatively, contact your local UPS Customer Service Centre on 0 821 233 877 (Service 0,12 EUR/min + cost of the call). For consumer assistance, please call 01 73 00 66 61 (non surcharged call). Where the money-back guarantee operates, if we fail to attempt delivery within the applicable time period, we will, on request, refund or credit you (or any other person who paid for the carriage) with the shipping charges (or, in the case that only some of the packages in a multiple package shipment fail to meet the applicable time limit, the proportionate part of the shipping charges relating to those packages), net of any surcharges, VAT, duties, taxes or levies, provided that the following conditions are fulfilled:

- a) shipping documentation (including labels) must have been correctly completed and the relevant package must bear the paper labels produced by UPS online shipping solutions or otherwise in accordance with the UPS packaging guidelines;
- b) any other documentation required by the country of origin or destination or any country of transit must be fully and accurately completed and included with the package;
- c) if applicable, the package must bear a Saturday Delivery routing label (for destinations to which this service is available);
- d) the shipment must have been tendered to UPS on or before the latest collection time specified by UPS for guaranteed delivery;
- e) you must have notified your request for claim to UPS in writing or by telephone within 15 calendar days from the date of scheduled delivery and advised us of the receiver's name and address, date of shipment, package weight and the UPS tracking number;
- f) the shipment must not require additional handling, be subject to the Oversize Pallet Charge or include a Large Package, as described in the [Additional Services and Charges](#) section in this guide;
- g) the shipper must provide Timely Upload of all applicable information to UPS. Timely Upload as used in these Terms refers to the electronic transmission of all applicable information (including, but not limited to, consignee's full name, complete delivery address, and shipment dimensions and weight) to UPS 15 minutes before the latest collection time specified by us for guaranteed delivery.

The guarantee does not apply when late delivery results from the package not complying with the restrictions and conditions set out in paragraph 3.1 of our [Terms and Conditions of Carriage](#), from events beyond our control (as set out in paragraph 6 of our [Terms and Conditions of Carriage](#)) or due to any suspension of carriage or return of a package as provided for in paragraph 3.3 of our [Terms and Conditions of Carriage](#) or the exercise of any lien by UPS in accordance with our [Terms and Conditions of Carriage](#).

For the avoidance of doubt, the liability of UPS under the money back guarantee is limited to the above and the guarantee does not otherwise constitute any form of undertaking or representation that the shipment will arrive by any particular time.

Liability

Liability for loss, damage or delay

The following is a summary for information purposes of certain relevant provisions of the UPS Terms and Conditions of Carriage. The full terms are set out in the Terms and conditions section and prevail in case of inconsistency with the present summary.

International Carriage:

Where carriage is international, international conventions may apply: in particular the Warsaw or Montreal Convention in the case of carriage by air and the CMR Convention in the case of carriage by road. The national laws of some countries may also extend the rules of such conventions to purely domestic carriage.

Where they apply, the rules of the Warsaw, Montreal and CMR Conventions govern and in most cases will limit our liability for loss, damage or delay to a shipment.

- the Warsaw and Montreal Convention limit is usually 19 Special Drawing Rights¹ (SDR's) per kilogram of the goods affected
- the CMR Convention limit is 8.33 SDR's per kilogram (but restricted to the amount of the carriage charges in the case of delay)

Other Carriage:

Where Convention rules do not apply, we will only pay compensation for loss, damage or delay of a package caused by our negligence and only up to a maximum of:

- EUR 85 per shipment; or,
- if greater, 8.33 SDRs per kilo of the goods affected, subject (as in all cases) to proof of loss.

You may obtain the benefit of a greater limit of liability by declaring a higher value for carriage on the UPS shipping documentation and paying a corresponding additional charge. If you declare a higher value for carriage and pay the applicable charge, then UPS's liability shall be limited to proven damages not exceeding the sum so declared (see under '[Optional services](#)').

The value of the goods concerned shall not in any event exceed USD 50,000 (USD 500 in the case of jewellery or watches other than costume jewellery or costume watches) or its local currency equivalent per package in a small package shipment, or USD 100,000 or its local currency equivalent per pallet in a Worldwide Express Freight shipment, as UPS does not offer carriage for goods with values above these amounts.

Except when Convention rules or other mandatory laws apply and require otherwise, we will not pay compensation for purely economic losses (such as loss of profits, loss of business opportunities or loss of revenue resulting from loss of use), even if a value has been declared for carriage in respect of the relevant shipment. We will also not be liable for any damage to or loss of packaging or pallet skids.

Any claim against UPS must be notified to us in writing as soon as possible and also within any specific time limit set out in our terms and conditions. In certain circumstances, Convention rules (if applicable) may permit a claim to be pursued against UPS outside these periods.

In addition to the above, any legal proceedings in respect of a shipment must be commenced and served on us within eight months of delivery or (in the case of non-delivery) of the due date for delivery. If the Warsaw, Montreal or CMR Conventions apply, there are longer time limits for the commencement of legal proceedings: in summary, 2 years in the case of the Warsaw and Montreal Conventions and 1 year (3 years if there is wilful misconduct on UPS's part) in the case of the CMR Convention.

¹ A Special Drawing Right is a unit of account adopted by the International Monetary Fund. The current value of an SDR is regularly published in major financial newspapers.
