1. CHOOSING THE RIGHT SERVICE

Determine which service levels are available to and from a particular location:

- 1 Find the location you are sending to or receiving from.
- 2 A service level is generally available when there is a zone number in the sending or receiving column of the country of your choice.
- 3 Note the zone number for later reference when calculating the cost.
- 4 Use the sending zone columns when shipping charges are billed to a party in the sending country.
- 5 Use the receiving zone columns when the shipping charges are billed to a party in the receiving country.

SECTION 2 -RATES FOR SENDING OR RECEIVING SHIPMENTS

UPS shipping rates are determined by a shipment's service level, zone number, weight, content and specific additional charges.

How to calculate your shipment rate:

- 1 Make sure you are in the correct section – sending rates or receiving rates. Sending rates apply to any outbound shipments when shipping charges are billed to a party in the sending country. Receiving rates apply to any inbound shipments when the shipping charges are billed to a party in the receiving country.
- 2 Determine the chargeable weight of your shipment.
- 3 Find the chart for the service level of your choice.
- 4 Find your shipment type in the chart (UPS Express Envelopes, documents or packages).
- 5 Look up the rate that applies to the chargeable weight and zone for your shipment.
- 6 Note any additional costs, including costs for optional services.

Important

For inbound shipments, please ensure that the shipper records your UPS account number on the UPS shipping documents.

All amounts displayed and payable to UPS are exclusive of VAT, if applicable. In accordance with Law No. (8) of 2017 on Value Added Tax (VAT), VAT shall be applicable on all UPS Services commencing 1st January 2018, which will be shown as a separate line item on UPS invoices. If VAT is chargeable, customers shall pay to UPS an amount equal to the amount of VAT on the invoice.

Zone

To determine the zone number, see [Worldwide zones](#).

Billable weight – for small package shipments

Billable weight is the weight used to calculate the rate. For domestic and international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

How To Calculate Billable Weight

Determine Actual Weight: Use any standard scale to determine the actual weight of your package. Increase any fraction to the next half kilogram.

Determine Dimensional Weight: Divide the cubic size of your package (length x width x height, rounding up each measurement to the nearest whole centimetre) in centimetres by 5,000. Refer to the figure at the bottom of this page. Increase any fraction to the next half kilogram.

Determine Billable Weight: Compare the package's actual weight to its dimensional weight. The larger of the two weights is the billable weight and should be used to calculate the rate.

For multiple-package shipments, total the billable weight of all packages in the shipment.

Additional charges

These rates are exclusive of any additional charges, such as charges for extended or remote area delivery or any optional services. Please see [Additional Services & Charges](#) for more details.

For more information, contact your local UPS office.

Tax

These rates are exclusive of tax. Where applicable, tax will be charged at the standard rate.

Arrange a collection

To arrange a collection please call UPS Customer Service on +974 4011 9600.

UPS Express Boxes

The UPS 10kg and UPS 25kg Express Box can be obtained by calling UPS Customer Service. Our representative can assist you with the completion of the UPS Waybill and any required export documentation. A commercial invoice is required. The information on the invoice will be used to determine any applicable duty and/or tax charged by the destination country.

UPS Express Envelope

For correspondence, documents and electronic media only.

Letter weight limit

Letter rates apply for international documents, correspondence and electronic media shipments that do not exceed 0.5 kg sent in a UPS Express® Envelope. Import and export letters above 0.5kg and less than or equal to 5.0kg will be billed the document rate. Import and export letters above 5.0kg will be billed the package rate.

Maximum weight

The maximum weight for an individual package is 70kg.

To determine the rate for a shipment with multiple packages weighing in total more than 70kg or multiply the total weight (rounded up to the next whole kilogram) by the appropriate price per kilogram shown.

The amount billed will be the result of the calculation, or the minimum rate shown, whichever is the greater.

How to determine dimensional weight - for small package shipments

$$\frac{L \times W \times H}{5000} = \text{Dimensional weight}$$

- L = length in cm
- W = width in cm
- H = height in cm

Billable weight – for UPS Worldwide Express Freight shipments

Compare the freight shipment’s actual weight and dimensional weight. Whichever is the greatest of the two will be the billable weight and should be used when calculating the rate. The amount billed will be the result of the calculation, or the minimum rate shown, whichever is the greatest.

For multi-piece shipments, the billable weight is determined by summing each pallet’s rounded actual or dimensional weight, whichever is greater.

- 1 Determine actual weight and round up any fraction of a kilogram to the next whole kilogram.
- 2 Determine dimensional weight by multiplying the item’s length by the width by the height. For each dimension, measure the largest distance, rounding up each measurement to the next whole centimetre or inch. The result is the cubic size. Divide the cubic size by 5000. Round up any fraction of a kilogram to the next whole kilogram.

Freight Billable Weight: Using a Pallet*									
No. of Pieces	Type	Length Each	Width Each	Height Each	Shipment Weight	Pallet Weight	Actual Weight	Dim. Weight	Billable Weight
1	Pallet	90cm	90cm	90cm	143kg	19kg	162kg	146kg	162kg

*Pallet billable weight is equal to the shipment weight (143kg) plus the weight of a pallet (approximately 19kg). Please note that each pallet and its secured contents is considered as one piece.

3. DETERMINING THE RATE - RECEIVING SHIPMENTS

The rate for receiving a UPS shipment is determined by its service level, origin zone, weight and any additional charges.

Our rates in your local currency are fixed in advance to avoid the effects of currency fluctuations and allow you to manage your import shipping costs.

How to calculate your shipment rate:

- 1** Make sure that you are in the correct section. The receiving rates in this section apply to any inbound international shipments when the shipping charges are billed to a party in the **receiving country**.
- 2** Determine the billable weight.
- 3** Turn to the service option of your choice (UPS Express, Express Saver, Expedited or Worldwide Express Freight).
- 4** Find your shipment type in the chart (UPS Express Envelopes, documents or packages). UPS offers separate rates for single package and multiple package shipments for the UPS Standard service.
- 5** Look up the rate that applies to the billable weight and zone for your shipment.
- 6** Note any additional costs, including charges for optional services.

Important

Please ensure that the shipper records your UPS account number on the UPS shipping documents.

Changes to rates and additional charges

In order to respond to evolving costs and taxes and to ensure a competitive service, UPS reserves the right to amend or introduce rates and charges. A minimum of 10 days notice will be provided.

All amounts displayed and payable to UPS are exclusive of VAT, if applicable. In accordance with Law No. (8) of 2017 on Value Added Tax (VAT), VAT shall be applicable on all UPS Services commencing 1st January 2018, which will be shown as a separate line item on UPS invoices. If VAT is chargeable, customers shall pay to UPS an amount equal to the amount of VAT on the invoice.

How to use this section

Rates in this section apply when the shipping charges are billed to a party in the **receiving country**.

Zone

To determine the zone number, see [Worldwide zones](#).

Billable weight – for small package shipments

Billable weight is the weight used to calculate the rate. For domestic and international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

How To Calculate Billable Weight

Determine Actual Weight: Use any standard scale to determine the actual weight of your package. Increase any fraction to the next half kilogram.

Determine Dimensional Weight: Divide the cubic size of your package (length x width x height, rounding up each measurement to the nearest whole centimetre) in centimetres by 5,000. Increase any fraction to the next half kilogram.

Determine Billable Weight: Compare the package's actual weight to its dimensional weight. The larger of the two weights is the billable weight and should be used to calculate the rate.

For multiple-package shipments, total the billable weight of all packages in the shipment.

Additional charges

These rates are exclusive of any additional charges, such as charges for extended or remote area delivery or any optional services. Please see [Additional Services & Charges](#) for more details.

For more information, contact your local UPS office.

Tax

These rates are exclusive of tax. Where applicable, tax will be charged at the standard rate.

UPS Express Envelope

For correspondence, documents and electronic media only.

Letter weight limit

Letter rates apply for international documents, correspondence and electronic media shipments that do not exceed 0.5 kg sent in a UPS Express® Envelope. Import and export letters above 0.5kg and less than or equal to 5.0kg will be billed the document rate. Import and export letters above 5.0kg will be billed the package rate.

Maximum weight

The maximum weight for an individual package is 70kg.

To determine the rate for a shipment with multiple packages weighing in total more than 70kg or multiply the total weight (rounded up to the next whole kilogram) by the appropriate price per kilogram shown.

The amount billed will be the result of the calculation, or the minimum rate shown – whichever is the greater.

4. ADDITIONAL SERVICES AND CHARGES

In this section you will find information about the additional services available from UPS.

How to calculate the total shipping cost:

- 1 Calculate the shipping charge in the sending & receiving a shipment section.
- 2 In this section, look up the charge for any additional service that might apply to your shipment. Please note that some charges are per package and some are per shipment. All packages covered under one waybill shall be considered a single shipment.
- 3 Add the two amounts together to find the total cost for your shipment (excluding customs or excise duties and taxes).

Unless otherwise indicated, charges for additional services will be billed to the payer and apply to all UPS service options.

The rates and additional charges detailed in this publication are effective 21 December 2025.

The latest information can be found on the UPS website www.ups.com.

Changes to rates and additional charges

In order to respond to evolving costs and taxes and to ensure a competitive service, UPS reserves the right to amend or introduce rates and charges. A minimum of 10 days notice will be provided.

If VAT is chargeable, customers shall pay to UPS an amount equal to the amount of VAT on the invoice.

How can UPS help return my goods?

UPS Returns®

Your goods can come back as easily as they go. Whether you need a shipment returned from a nearby city within Europe or from across the globe, UPS Returns can simplify.

Service	Description	Fee
UPS Return Plus		
UPS 1 Attempt Returns Plus	Allows you to request a collection for the prompt return of a package. A UPS driver will make one attempt to collect the return package. If unable to collect the package, our driver will leave the label for your customer. The customer will then apply the label to the package and take it to a UPS location or contact UPS for a collection. For service availability please see notes below.	QAR 35.55 per package in addition to the relevant receiving shipping costs.
UPS 3 Attempts Returns Plus	Allows you to request a collection for the prompt return of a package. The UPS driver will attempt to collect your package for three consecutive business days. If, by the third attempt, the driver is still unsuccessful in collecting the shipment, the label will be returned to UPS and you will have to reprocess the service request. For service availability please see notes below.	QAR 38.40 per package in addition to the relevant receiving shipping costs.
UPS Returns¹		
UPS Prints and Posts Return Label	UPS prints and posts return labels to your customer. This is suitable for a variety of circumstances such as product recalls. Once applied, your customer can arrange a collection with UPS. For service availability please see notes below.	Free of charge aside from relevant receiving shipping costs.
UPS Print Return Label	Enables you to generate a label and include it in an outbound shipment to over 135 countries worldwide. You may also distribute the labels separately after your shipment has been sent. Customers then simply apply the label to their package and either bring the package to a UPS authorised collection point or arrange a collection with UPS. For service availability or for UPS location details, please call your local UPS office or visit www.ups.com .	QAR 6.40 per package in addition to the relevant receiving shipping costs.
UPS Electronic Return Label	Allows you to email a return label to customers in over 135 countries. Your customer can then print the return label and a receipt before either bringing the package to a UPS-authorised collection point or arranging collection with UPS. You can also pre-authorise return shipments of packages that meet the parameters agreed upon by you and UPS. If your customer generates a return label using the outbound tracking number, you will be responsible for payment of charges regardless of when the package is tendered. For service availability or for UPS location details, please call your local UPS office or visit www.ups.com .	QAR 8.30 per package in addition to the relevant receiving shipping costs.
UPS Import Control²		
Print label	Create shipping labels and commercial invoices for your exporters, effectively allowing you to specify UPS service and shipment characteristics and take control of costs and timing.
