# How to Process Your Shipments (continued)

UPS offers a wide variety of door-to-door services with guaranteed delivery time and customs clearance. To determine the service, weight, zone, rate and additional charges, follow these steps.

## 2 Determine the Weight

### Determine the Actual Weight

The package weight rounded up to the next half kilogram.

### Determine the Dimensional Weight (see image below)

Multiply the length by the width by the height (each rounded to the nearest whole centimeter) of each package to determine its cubic size.

For each dimension (length, height, and width), round any fraction up to the next whole number (for example, 1.1 will be considered 2)

Divide the cubic size of the package by 5,000 to determine Dimensional Weight in kilograms. Increase fractions of a weight to the next full kilogram.

Compare the package's Actual Weight to its Dimensional Weight. The greater of the two is the Billable Weight and should be used to calculate the rate. For multiple package shipments, total the Billable Weight of all packages in the shipment.

### Shipment Pricing

Shipment Pricing applies when shipping multiple packages to one destination on the same day and the packages are listed on the same UPS Air Waybill

or Shipping Label. The sum of the Billable Weight of all packages is considered as one shipment.

Shipment Pricing does not apply to UPS Express Envelopes, since these cannot be part of a multiple-package shipment. Shipment Pricing applies to all your exports and imports.

## 3 Determine the Zone

To determine the applicable zone for the country of destination of your exports for UPS Worldwide Express Plus®, UPS Worldwide Express® and UPS Worldwide Express Saver®, please refer to the Zone Chart on pages 5, 6 and 7.

To determine the applicable zone for the country of origin of your imports with consignee payment option for UPS Worldwide Express Saver, and UPS Worldwide Expedited® please refer to the Zone Chart on page 5, 6 and 7.

**Note:** If a zone number is not indicated in the corresponding column for the service you want to use, then UPS does not offer this service to that origin and/or destination country.

## 4 Determine the Rate

The rate is based on the service, the weight and zone.

## 5 Determine Additional Charges

To determine if your shipment will incur any additional charges based on UPS additional services, please refer to the Additional Charges section on pages 13 through 15 of this Rate and Service Guide.

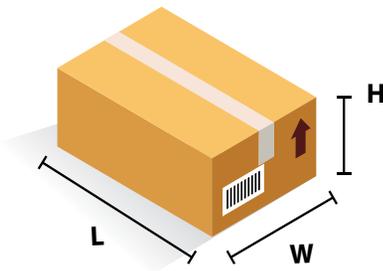

### Dimensional Weight =

$$\frac{L \times W \times H}{5,000}$$

L = Length in centimeters\*

W = Width in centimeters\*

H = Height in centimeters\*

\*Round any fraction up to the next whole number (for example, 1.1 will be considered 2.0)

Contact your local UPS office or your UPS Account Executive to obtain the most recent information about the guarantee details, product limitations, service coverage and availability and delivery time commitments. For shipments weighing over 31.5 kilograms, the rate is calculated by multiplying the total shipment weight (rounding up to the next full kilogram) by the price per kilogram shown at the bottom of the Rate Chart. UPS will bill the result of this calculation or the Minimum Rate that is indicated, whichever is greater.

International air shipments may be subject to the Warsaw Convention, including its limitations on legal liability.

### UPS Worldwide Express Plus®

To determine the rate for shipments with early delivery using the UPS Worldwide Express Plus service, UPS will charge an additional US\$35.16 per shipment destined to the United States and US\$47.25 to Canada, Europe, Asia and Latin America.

+ For Envelope shipments, which weight exceeds 0.5 Kg., the published rate for the corresponding weight will apply.

### Note

For shipments over 32.0 Kg., any fraction of a kilogram is rounded up to the next full kilogram.

### For shipments weighing more than 50 Lbs.

To determine the rate for shipments weighing over 50 pounds, the rate is calculated by multiplying the total shipment weight (rounding up to the next full pound) by the price per pound shown at the bottom of the Rate Chart. UPS will bill the result of this calculation or the Minimum Rate that is indicated, whichever is greater.

International air shipments may be subject to the Warsaw Convention, including its limitations on legal liability.

When the payer is located in a third country, other than the origin and destination countries, then the export rates from the origin country will apply, except when previously agreed to by UPS and the contractor.

To obtain more information about the availability of third party payment option, please contact your local UPS office or your UPS Account Executive.

\* All charges will be billed to the consignee located in the Bahamas.

### Note

Any fraction of a pound is rounded up to the next full pound.
