2. DETERMINING THE RATE – SENDING SHIPMENTS

UPS shipping rates are determined by a shipment's service level, zone number, weight, content and specific additional charges.

How to calculate your shipment rate:

- 1 Make sure that you are in the correct section. The sending rates in this section apply to any outbound international shipments when the shipping charges are billed to a party in the **sending country**.
- 2 Determine the billable weight.
- 3 Find the chart for the service level of your choice.
- 4 Find your shipment type in the chart (UPS Express Envelopes, documents or packages).
- 5 Look up the rate that applies to the billable weight and zone for your shipment.
- 6 Note any additional costs, including charges for optional services.

Important

For inbound shipments, please ensure that the shipper records your UPS account number on the UPS shipping documents.

Changes to rates and additional charges

In order to respond to evolving costs and taxes and to ensure a competitive service, UPS reserves the right to amend or introduce rates and charges. A minimum of 10 days notice will be provided.

How to use this section

Rates in this section apply when the shipping charges are billed to a party in the **sending country**.

Zone

To determine the zone number, see [Worldwide zones](#).

Billable weight – for small package shipments

Billable weight is the weight used to calculate the rate. For international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

How To Calculate Billable Weight

Determine Actual Weight: Use any standard scale to determine the actual weight of your package. Increase any fraction to the next half kilogram.

Determine Dimensional Weight: Divide the cubic size of your package (length x width x height, rounding up each measurement to the nearest whole centimetre) in centimetres by 5,000. Refer to the figure at the bottom of this page. Increase any fraction to the next half kilogram.

Determine Billable Weight: Compare the package's actual weight to its dimensional weight. The larger of the two weights is the billable weight and should be used to calculate the rate.

For multiple-package shipments, total the billable weight of all packages in the shipment.

Additional charges

These rates are exclusive of any additional charges, such as charges for extended or remote area delivery or any optional services. Please see [Additional Services & Charges](#) for more details.

For more information, contact your local UPS office on +254 703 011 000/ +254 732 171000.

Tax

These rates are exclusive of tax. Where applicable, tax will be charged at the standard rate.

UPS Express Boxes

The UPS 10kg and UPS 25kg Express Box can be obtained by calling your local UPS office. Our representative can assist you with the completion of the UPS Waybill and any required export documentation.

A commercial invoice is required. The information on the invoice will be used to determine any applicable duty and/or tax charged by the destination country.

UPS Express Envelope

For correspondence, documents and electronic media only.

Letter weight limit

Letter rates apply for international documents, correspondence and electronic media shipments that do not exceed 0.5 kg sent in a UPS Express® Envelope. Import and export letters above 0.5kg and less than or equal to 5kg will be billed the document rate. Import and export letters above 5kg will be billed the package rate.

Maximum weight

The maximum weight for an individual package is 70kg.

To determine the rate for a shipment with multiple packages weighing in total more than 70kg or multiply the total weight (rounded up to the next whole kilogram) by the appropriate price per kilogram shown.

The amount billed will be the result of the calculation, or the minimum rate shown, whichever is the greater.

How to determine dimensional weight - for small package shipments

$$\frac{L \times W \times H}{5000} = \text{Dimensional weight}$$

- L = length in cm
- W = width in cm
- H = height in cm

3. DETERMINING THE RATE – RECEIVING SHIPMENTS

The rate for receiving a UPS shipment is determined by its service level, origin zone, weight and any additional charges.

Our rates in your local currency are fixed in advance to avoid the effects of currency fluctuations and allow you to manage your import shipping costs.

How to calculate your shipment rate:

- 1** Make sure that you are in the correct section. The receiving rates in this section apply to any inbound international shipments when the shipping charges are billed to a party in the **receiving country**.
- 2** Determine the billable weight.
- 3** Find the chart for the service level of your choice.
- 4** Find your shipment type in the chart (UPS Express Envelopes, documents or packages).
- 5** Look up the rate that applies to the billable weight and zone for your shipment.
- 6** Note any additional costs, including charges for optional services.

Important

For inbound shipments, please ensure that the shipper records your UPS account number on the UPS shipping documents.

Changes to rates and additional charges

In order to respond to evolving costs and taxes and to ensure a competitive service, UPS reserves the right to amend or introduce rates and charges. A minimum of 10 days notice will be provided.

How to use this section

Rates in this section apply when the shipping charges are billed to a party in the **receiving country**.

Zone

To determine the zone number, see [Worldwide zones](#).

Billable weight – for small package shipments

Billable weight is the weight used to calculate the rate. For international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

How To Calculate Billable Weight

Determine Actual Weight: Use any standard scale to determine the actual weight of your package. Increase any fraction to the next half kilogram.

Determine Dimensional Weight: Divide the cubic size of your package (length x width x height, rounding up each measurement to the nearest whole centimetre) in centimetres by 5,000. Increase any fraction to the next half kilogram.

Determine Billable Weight: Compare the package's actual weight to its dimensional weight. The larger of the two weights is the billable weight and should be used to calculate the rate.

For multiple-package shipments, total the billable weight of all packages in the shipment.

Additional charges

These rates are exclusive of any additional charges, such as charges for extended or remote area delivery or any optional services. Please see [Additional Services & Charges](#) for more details.

For more information, contact your local UPS office on +254 703 011 000/ +254 732 171000.

Tax

These rates are exclusive of tax. Where applicable, tax will be charged at the standard rate.

UPS Express Envelope

For correspondence, documents and electronic media only.

Letter weight limit

Letter rates apply for international documents, correspondence and electronic media shipments that do not exceed 0.5 kg sent in a UPS Express® Envelope. Import and export letters above 0.5kg and less than or equal to 5kg will be billed the document rate. Import and export letters above 5kg will be billed the package rate.

Maximum weight

The maximum weight for an individual package is 70kg.

To determine the rate for a shipment with multiple packages weighing in total more than 70kg or multiply the total weight (rounded up to the next whole kilogram) by the appropriate price per kilogram shown.

The amount billed will be the result of the calculation, or the minimum rate shown – whichever is the greater.

4. ADDITIONAL SERVICES AND CHARGES

In this section you will find information about the additional services available from UPS.

These include:

- UPS Internet Shipping
- UPS Returns
- UPS Import Control

How to calculate the total shipping cost:

- 1 Calculate the shipping charge for sending or receiving a shipment (see Section 2 or Section 3).
- 2 In this section, look up the charge for any additional service that might apply to your shipment. Please note that some charges are per package and some are per shipment. All packages covered under one waybill shall be considered a single shipment.
- 3 Add the two amounts together to find the total cost for your shipment (excluding customs or excise duties and taxes).

Unless otherwise indicated, charges for additional services will be billed to the payer and apply to all UPS service options.

The rates and additional charges detailed in this publication are effective 21 December 2025.

The latest information can be found on the UPS website www.ups.com or may be confirmed by contacting the UPS Customer Service Centre on +254 703 011 000/+254 732 171000.
